

The following video conferencing systems are available through www.dell.com and are compatible with the ISDH systems currently in use. These LHD system options are capable of communicating with many other brands of video conferencing units. I have included a monitor for each system above level one (a user supplied laptop or desktop computer is used for Level 1), however, any monitor with an HDMI input can be used.

Level 1

LifeSize Desktop Video Conferencing System with Logitech HD Webcam and Clear One microphone / speaker

- (est.) \$420.00
- LifeSize Part Number – LifeSize Desktop
